Development Vision & Design Inspiration

Development Vision

IFC Hanoi is a mixed-use development in Starlake Tay Ho Tay, combining office space, a five-star hotel, and serviced residences. It is designed to support business, stays, and daily life in one location.

With practical layouts, clear access, and well-planned amenities, IFC Hanoi meets the evolving needs of businesses and the city's growing workplace and hospitality landscape.

Design Inspiration

The architecture draws from Vietnamese cultural forms, including the flowing lines of the “Ao dai” and the layered geometry of terraced fields. These influences are expressed in a contemporary design that blends local identity with an international perspective.

The design balances tradition and modern use, creating a building that supports work and daily life while reflecting Vietnam’s cultural character.

Project Overview

IFC Hanoi - A leading mixed-use development in Starlake Tay Ho Tay

Tower 1 | Hotel & Serviced Residence

Designed as the centerpiece of luxury hospitality, Tower 1 offers a sophisticated blend of short-term and long-term stay solutions for global professionals.

Capacity
1,600 kg

Speed
3.5 m/s (Lower zone)
5.0 m/s (Upper zone)
1.5 m/s (Passenger shuttle)

Grade A Office Spaces

With NLA of 59,700 sqm, IFC Hanoi provides office space with open column-free floor plates and a generous 2.8m clear ceiling height, maximizing natural light penetration and allowing flexible and efficient workspace planning aligned with LEED's sustainable design principles.

The lobby and high-performance façade are designed with a focus on functionality, energy efficiency, and comfort, supporting everyday workplace use while significantly reducing thermal gain to maintain an optimal indoor climate.

With adaptable layouts and advanced infrastructure - including centralized air conditioning systems and an Integrated Building Management System (IBMS) - IFC Hanoi supports daily work, team collaboration, and employee wellbeing. Developed to support LEED Gold Certification, the building ensures a superior indoor environment that prioritizes fresh air and health in a truly sustainable, practical, and future-ready working environment.

Expected LEED Gold Certification

In alignment with global benchmarks for environmental stewardship and corporate governance, IFC Hanoi is pursuing the LEED Gold Certification - the gold standard in high-performance green building design

This pursuit reflects our unwavering commitment to providing a world-class workplace that meets the rigorous ESG (Environmental, Social, and Governance) requirements of multinational corporations. By integrating sustainable practices into our core infrastructure, IFC Hanoi not only reduces its environmental footprint but also offers a prestigious address that enhances the corporate identity and long-term value of our tenants.

The architectural and technical design of IFC Hanoi is engineered to foster a high-performance environment where efficiency meets occupant well-being. This vision is realized through an open, column-free floor plate and an expansive 2.8m ceiling height, maximizing natural light and air circulation to boost productivity. Behind the scenes, the building's "intelligence" is powered by a Centralized Air Conditioning System and an Integrated Building Management System (IBMS), ensuring optimal energy efficiency and climate control. With a vertical transportation system featuring speeds up to 5.0 m/s and 100% power back-up, IFC Hanoi provides a seamless, secure, and sustainable foundation for businesses to thrive in Hanoi's Business Hub.

Hospitality & Serviced Living by The Shilla Hotels & Resorts

Operated by a leading luxury hospitality brand under The Shilla Hotels & Resorts, the Hotel Tower is set to open in 2026, setting a new standard for luxury hospitality in Hanoi

Accommodation

319 hotel rooms and 221 serviced residences.

Banquet

About 1,000 sqm of comfortable and spacious facilities, including 1 Convention room and 3 Meeting rooms at the 1st floor.

Dining

International dining concepts (Including Korean and Chinese cuisines), lounge spaces, and a rooftop bar.

Leisure & Wellness

Indoor & outdoor swimming pools, fitness facilities, spa, and wellness spaces.

Luxury Services

Daily hospitality services for both hotel guests and serviced residence guests.

The serviced residence operates under the independent brand “La Residence”, with operations managed by The Shilla.

All-in-one Convenience

IFC Hanoi brings together work and daily-use amenities for office users and residents:

Wellbeing & Leisure

Fitness, spa, and dining spaces

Flexible Use

Spaces for work, leisure, and social activities in one setting
